4. Statement of Financial Eligibility

(1) Criteria for paying expenses

When applying to the Graduate School of Science and Engineering, the amount to be certified by a bank balance certificate or a scholarship award certificate should cover one year's worth of living and tuition expenses (approximately 160,000 yen per month × 12 months).

Applicants who also apply for the "Soka University Makiguchi Memorial Educational Foundation Scholarship for International Students" may submit their application even if the certified amount is below the standard. However, please note that during the visa application process (Certificate of Eligibility issuance or visa renewal), the Immigration Services Agency of Japan will review your financial ability to support your stay. If, as a result of this review, the COE is not issued or your visa renewal is denied, admission to the university will not be granted.

(2) Person who can be a financial sponsor

A financial sponsor is a person who is responsible for paying for the applicant's tuition and living expenses while at the university. Generally, a parent or family member with a certain amount of income or savings (regardless of country of residence) may become a financial sponsor. If the applicant has sufficient savings to cover the cost of study in Japan, he/she can be the sponsor. In addition, more than one person can be an expense sponsor.

If there are unavoidable circumstances, such as you cannot find a family member to cover your expenses, you may choose a friend or acquaintance as your financial sponsor. In this case, please submit an agreement to be your financial sponsor with a detailed explanation of the circumstances and reasons for accepting the responsibility for covering your expenses. However, friends or acquaintances who loan you money for your expenses with the promise of future return are not eligible to be your financial sponsor. Please note that if you are choosing a friend or acquaintance as your primary financial sponsor, your visa screening may be more stringent.

(3) How to prepare "Statement of Financial Eligibility"

Please attach documents to support your financial expenses according to the following guidelines when submitting the statement of financial eligibility form at the time of application. If there are multiple financial sponsor(s) or if the applicant is applying for scholarship, the total amount of all bank statements and scholarship benefits (annual amount) must be more than the criteria amount (if applying for scholarship, less than the criteria amount is acceptable).

1. If the applicant him/herself will pay expenses

- A bank account statement in the applicant's own name

2. If a person other than the applicant will pay expenses (including residents in Japan)

- Agreement to pay expenses (signed by the financial sponsor on the designated form)
- A bank account statement in the name of the financial sponsor
- Documentary proof of employment
- Documentary proof of annual income
- Document verifying relationship with applicant (e.g., a copy of the family register, a certificate of residence, a notarized statement of kinship, etc.)

3. If a scholarship will be used to pay (not including the Soka University Makiguchi Memorial Educational Foundation Scholarship for International Students)

- Documentary proof of scholarship payment specifying the amount to be paid, the period of payment, and the organization paying (The allowance shown should amount to approximately JPY 2,000,000 per year in total).

9. Applying for a Certificate of Eligibility for Residence Status and Obtaining Visa

After being admitted to the university, prospective students are required to complete the necessary procedures for acquiring status of residence, entry, and stay in Japan.

If you need to obtain a college student visa to newly enter Japan, the university will apply for the issuance of a “Certificate of Eligibility (COE)” on your behalf, which is necessary for visa procedures. Please submit the documents for COE (application form, a scanned copy of your passport, and a standard-compliant face photo) during the enrollment process. If your application is approved, please complete visa procedures at the nearest Japanese embassy or consulate (or at the nearest immigration office if you are already living in Japan).

- The Japan Immigration Services Agency (Ministry of Justice) will issue the “Certificate of Eligibility” based on the criteria set by the Japanese government. Please note that if the issuance of the Certificate of Eligibility is denied, your admission to the University will be revoked as well.
- After the COE is issued, you will obtain a visa and enter Japan. In the unlikely event that you decide not to enroll, your COE will be revoked, and you will be required to return to your home country immediately.
- During the screening process, you may be asked to submit additional certificates or other documents by the Japan Immigration Services Agency. In this case, the university will contact you and ask you to submit the documents as instructed promptly.
